

gogoldva

for kids with cancer

337

children are diagnosed with cancer each year in Virginia.* However...

0%

of Virginia's \$20+ million cancer funding is used to support children.

We need to show Virginia's leaders how important childhood cancer is to our community so they bring about real legislative change.

We're on a mission to light up 337 buildings and homes in gold during September, starting with the Governor's Mansion, to show our support for children like Mason across the state who are diagnosed with cancer each year - but we need your help. Here's how you can join the movement:

Mason, age 2, was diagnosed with Acute Myeloid Leukemia in January 2020.

Take the pledge.

Visit gogoldva.org to sign the pledge to Go Gold during the month of September.

Go GOLD!

Buy your gold light bulb and light up your home to visibly show your support.

Spread the word.

Go Gold with neighbors, friends and family - in person and virtually on social media!

Take the pledge at
gogoldva.org
